DETAILED ACTION

Specification

1. The abstract of the disclosure is objected to because it contains the form and legal phraseology often used in patent claims, such as "means" in line 4 and 7 which should have been avoided. Correction is required. See MPEP § 608.01(b).

Drawings

2. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the limitation in lines 12-13 of claim 1 and in lines 10-11 of claim 5 and the "discharge head" at "the shampoo bowl" in lines 3-4 of claim 10 must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New

Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Objections

3. Claims 1-15 are objected to because of the following informalities: the claims are replete with non-equivalent alternative limitation such as in lines 9-10 of claim 1, in lines 7-8 of claim 5, in lines 5-6 of claim 6, "a/said" in line 4 of claim 9 and through out claims 10-15, "a fixed type or a movable type" in lines 4-5 of claim 10, "tanks/the tanks" in line 3 of claim 11, and "a/the" in line 7 of claim 12 and through out claims 13-15. Appropriate correction is required.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 1-15 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The phrase "such as" in line 20 of claim 1 and in line 18 of claim 5 renders the claims indefinite because it is unclear whether the limitations following the phrase are part of the claimed invention. See MPEP § 2173.05(d). Furthermore, it is unclear what structure "the head" in line 11 and "the cover" in lines 12-13 of claim 1 and through out the rest of the claims are trying to refer to. Moreover, it is unclear what "sol" in line 15 of claim 1 and line 13 of claim 5 is since no explanation is given in the specification. Finally, it is unclear as to what structure is applicant trying to

claim with the language "as a result of connection" in line 3 of claim 12 and the language "controlling of operations" in line 3 of claim 15. Therefore, the claims are being examined as best understood.

Claim Rejections - 35 USC § 102

6. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

7. Claims 1-15 are rejected under 35 U.S.C. 102(b) as being anticipated by EP1433400A1 (hereinafter Matsunaga).

As best understood, Matsunaga disclose the self automatic hair and scalp washing and caring device as claimed.

Conclusion

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Minami, Cheng, Ishimura, and Turmenne et al. discloses other hair washing device.
